

**Code Enforcement and Environment Committee Minutes**  
**p.m. All present**  
**Safety -**

**2. May 6**

Entire meeting's focus was on Safety in the U-District. We brainstormed on possibilities of what we as a Commission could focus on. Our Committee has decided to move into two different directions: one, work closely as a committee with city, county, state and federal officials to ascertain a plan of action moving forward; two, to formulate a future U-Districtwide Convention that not only includes a relationship with that of #1, but also include the public at all levels within our District of Communities. We put many ideas forth, old and new. Our committee next month will begin the planning of the two focuses, to which each member will guide the rest of what they have learned and what part they wish to undertake. Our focus has been the direct result of the violence increase in crime within our community, including but not limited to the COTA Bus Shooting, Increase in Gun Related Crimes, Shredding of the U-District Quality of Life, downplaying by officials to the degrees of crime types.

Each member of the C&E Committee will receive a full report of what was specifically talked about in the 2. May meeting with a specific itinerary moving forward before it's next meeting on 6. June 2013. A Convention is targeted for this Fall.

**- meeting adjourned at 9:00pm -**

*Next Code Enforcement and Environment Committee(C&E) Meeting: 6 p.m., 6. June 2013 at the Godman Guild Library Agenda {Venue Location may change and will be posted at the door}*
