

# University Area Commission -Community Relations Committee

Agenda - May 1, 2013

---

## Agenda:

1. We will meet collectively and spend no more than 10 minutes agreeing on an agenda based on the issues that are at hand and merit further consideration of this body.
  - A. Discussion of the new Community Contact Database created by Gena Shelton and how we can promote it and then use it to improve communication between the University Area Commission and the public. How have current goals been met, what is left that can be done? Why not schedule our first community meet up day?
  - B. Discussion of doing our first event.
  - C. Other Topics Brought up during the beginning of the meeting focused on creating the Agenda.

All Commissioners who would like input on this proposal are encouraged to come to the meeting or email members of this committee about issues that they think merit discussion within this Committee.
